AUDIT TYPE:

Announced Audit

AUDIT SCOPE:

Visit farm with honey Dew and Cantaloupe melon cultivation with a planting area of 87.41 ha, about 50 employees are kept on the farm to carry out the different work of the crop. The production is seasonal between the months of December to May approximately. The water used in the farm for work of applications and operation of the personnel comes from a spring and is stored in reservoirs, there is a filtration and water purification system, irrigation is carried out by means of the drip method. Agrochemical applications are carried out with fumigation equipment. At the time of the visit, irrigation work was being carried out on the crop, interviews with the available personnel are conducted, water sources, food areas, sanitary stations in the field, fertilizer and pesticide storage are visited. Agricultural work is carried out by internal personnel. In the entrance of the farms there is internal surveillance, there is labeling in the entrance where staff and visitors are reminded about established hygiene measures.
