Announced Audit

AUDIT EXECUTIVE SUMMARY:

Watermelon cultivation operation with an area of 3.85 ha and 418.66 ha of melon, production season between the months of November to May, there are about 350 employees on the farm to carry out the different cultivation tasks. At the time of the inspection, sowing, irrigation and cultivation work was observed. The water used in the operation comes from wells and is stored in reservoirs, this is used to supply the water needs of the crop through the drip irrigation method, it is used for fertilizer applications via fertigation and for pesticide applications through equipment. fumigation. During the inspection, cultivation areas, field facilities such as irrigation system, dining room, toilets, warehouses are verified and interviews are carried out with the available personnel. The cultivation areas are maintained with a perimeter fence, there is signage with entry restriction, sensitive areas with controlled access and there is internal surveillance.
