Announced Audit

AUDIT EXECUTIVE SUMMARY:

Visit to a farm with melon cultivation has an area of 372.63 ha, production season between the months of November to May, there are about 300 employees on the farm to carry out the different cultivation tasks. Water from a well is used, stored in a reservoir and used to supply the water needs of the crop through the drip irrigation method, it is also used for agrochemical applications through spray equipment. At the time of the inspection, irrigation work, weed control and product harvesting were observed. Water sources, chemical storage, cultivation areas, sanitary installations, dining areas are verified and interviews are carried out with the available personnel. The farm has a perimeter fence, internal surveillance, sensitive areas such as chemical stores, irrigation systems and water sources are kept with controlled access.
