AUDIT TYPE:

Announced Audit

AUDIT EXECUTIVE SUMMARY:

Farm with melon cultivation for export to the USA, there are about 372.96 ha of melon planting, production is maintained during the months of December to May approximately, there are about 253 employees on the farm to carry out the different tasks of the crop. On the farm, water from wells is used for the application of fertilizers, pesticides and to supply the water needs of the crop through the drip irrigation method. At the time of the inspection, a tour of the cultivation areas, water sources, field facilities such as dining room, toilets and chemical storage is carried out. Fertilizer and pesticide applications are made with spray fumigation equipment. Irrigation tasks, manual weed control, mesh placement (agribon) were observed, and interviews were conducted with the available personnel.

Addendum(s) included in the audit:

Not Applicable
