Announced Audit

AUDIT EXECUTIVE SUMMARY:

Visit to an operation with melon cultivation for export to the USA, with a production area of 445.3 hectares, work is carried out seasonally between the months of November to May, there are about 500 employees to carry out the different cultivation tasks. Cultivation and irrigation work was observed at the time of the inspection, a tour of the cultivation areas, water sources, sanitary facilities, food area was carried out and the staff was interviewed. Water from wells is used to supply the water needs of the melon crop through the drip irrigation method, fertilizer applications are carried out through the irrigation system and pesticide applications are carried out through fumigation equipment.
