Announced Audit

AUDIT EXECUTIVE SUMMARY:

Operation with melon cultivation for export to the USA, there is a productive area of approximately 104.3 hectares, production is maintained on a seasonal basis between the months of November to May, there are about 120 employees to carry out the different cultivation tasks. At the time of the inspection, normal operation was observed, irrigation work and preparation of areas for planting were being carried out, sanitary facilities, dining rooms, water sources, cultivation areas were verified, and interviews were carried out with the available personnel. The water used in the crop to supply water needs is obtained from wells and stored in a reservoir. Irrigation is carried out using the drip method. Fertilizer applications are made through the irrigation system and pesticide applications are made through fumigation equipment.

Addendum(s)/Module(s) included in the audit:

Not Applicable
