AUDIT TYPE:

Announced Audit

AUDIT EXECUTIVE SUMMARY:

The farm is dedicated to the conventional production of watermelon and melon (honeydew and cantaloupe) for export to the United States. The farm uses water from several wells located within the same operation for all activities carried out on it: irrigation, fertigation, pesticide application, cleaning and sanitation, etc. There is a drip irrigation system installed. During the audit, it was confirmed that there are melons and watermelons planted in different stages in lots (identified as shifts), as well as some others in preparation for planting. Field staff were carrying out various cultural activities such as weed removal and harvesting, among others. The boundaries, cultivation areas, sanitary services, rest areas, wells and warehouse of supplies were inspected.

Addendum(s)/Module(s) included in the audit:

Not Applicable

Product information for each product			
Product Group/Product Name	Observed Product	Seasonality	Country of destination for product
Honeydew (Whole)	Observed on the day of audit	From: December To: May	United States
Watermelons (Whole)	Observed on the day of audit	From: December To: May	United States
